Dear Michael,

Thank you for introducing me to the 515 system. Since using this system, I have found that I have better concentration and my retention of new information has also improved.

I like & use programs 1,3, & 4 in various settings for varied lengths of time. My personal improvement could be "visualized" after about a week of use. I am a proud new father of a beautifully energetic girl. Also, I am an engineering manager in charge of software products for an international gaming manufacturer. These improvements have come at a time in my life when I value my time the most.

In summary, the program afforded by the 515 is useful to productive people for all sorts of productive things. One of the "stigmas" related to "self help" paraphernalia is that one must realize a problem to affect a cure or a positive result. The 515 improves upon good situations - making good things better. The result being enhanced and improved activities at all levels.

Thanks again.

Sincerely,

  
Richard Hunsaker
